

Unit project

After learning this unit, you are going to accomplish a project with other members in a group.

In-class presentation:

Choose at least five types of different vessels and introduce them to the whole class.

The following tips are provided for your reference.

1. What is the definition of this type of vessel?
2. What kind of cargoes does this type of vessel usually carry?
3. What are the features of this type of vessel?
4. Can this vessel be further classified into different types? If yes, what are they?
